How High Will Meat Prices Go?

Swift & Company does not know whether prices will go higher or lower.

It depends upon country-wide and world conditions that Swift & Company cannot control and cannot foresee.

All the world needs meat, and only a small part of the world is raising live stock. So live stock is dear now, and meat prices must keep pace.

Competition will continue to keep the "spread" low so that the price you pay for meat will be as close as possible to what must be paid for live stock,

Our profit of only a fraction of a cent a pound, is no greater when prices are high than when they are low.

What is Spring Fever

It is simply lack of Energy and low Vitality caused by impurities in the blood.

Grove's Tasteless chill Tonic

restores Energy and Vitality by creating new healthy blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS Can't TONIC is not a patent medicine. It is simply IRON and QUININE suspended in Syrup. So pleasant even children like it.

The Quinine and Iron does not dissolve in the syrup and, therefore, does not make the syrup bitter. You do not taste the bitter Quinine and you do not taste the Iron because both are completely covered with syrup when swallowed.

Your system needs Quinine to Purify the Blood and Iron to Enrich it. These good old reliable tonic properties never fail to drive out impurities in the blood, and when you have rich, pure blood coursing through your veins, you feel like running, jumping and shouting. The Spring Fever soon disappears.

GROVE'S TASTELESS chill TONIC is acceptable to the most delicate stomach and does not cause nervousness or ringing in the head. Price 60c.

Paraguay was eliminated because of her isolated territory and lack of inout that colombia and Venezuela have on a number of occasions approved the application of the Monroe doctrine, so it is considered unlikely they sought the information.

Thus, by process of emilination, the conclusion is that, if such an inquiry were actually made, it probably came from Argentina and Chile. Both these countries have been in vited to join the league of nations and both have officially expressed their approval of the organization. The inclusion of the Monroe doctrine specifically in the covenant of the league has not brought forth any protest from either country.
